

KEELE HALL GPS QUEST

Not just a Treasure Hunt but an integrated event using latest technology, tablets and GPS tracking to create a team event which is engaging, has something for everybody and draws upon your individual quests' inquisitiveness, creativity and skills.

Keele Hall with its historical background coupled with the vast university campus will give teams plenty of areas to explore while they take part in this exciting challenge!

The GPS Quest works by setting you a series of 'hotspots' on your tablet and it is not until you navigate to each individual hotspot that your instructions appear on your tablet – we always seek to maximise the potential of your location and so you may have to find the answer to a question about the hotspot vicinity or have the team produce a creative photograph.

Careful planning is essential to maximise your team's score as not every hotspot has the same outcome – and the game is on to outperform the competition and earn the highest score possible.

"We had a fabulous time on the event and loved seeing our colleagues in that light" *Toshiba*

DURATION

120 - 150 minutes BT
(according to guest numbers)

GUEST NOS.

Up to 210 in teams of 6
